Sears, Roebuck and Company

Dear Sirs,

Why doesn't Sears come up with a lawn food that can be applied full-strength in midsummer as well as spring? I'd like to really "green-up" my lawn with one good July or August feeding without fear of burning out the grass. Also isn't there some way to concentrate the food so it can be put in a smaller bag? It's awfully hard to fill a spreader from a bulky 50-pound sack. If anyone could develop a better lawn food at a reasonable price, I should think it would be Sears.

-Anxious

O.K., Mr. Anxious, here's what you asked for!

SEARS SUPERFINE LAWN FOOD

You'll find our price is low for a lawn food of this fine quality. You can safely apply it full-strength any time of the year no matter if the weather is cold, damp, hot or dry. Even an accidental overdose won't "burn out" your grass. Extra-strength slow-fast nitrogen formula "greens-up" your lawn immediately and keeps it green longer

One easy-to-handle
22 pound bag covers
up to 8000 square feet

\$4³³

Contains 25% nitrogen in both fast and slow acting form for quick "green-up" and continuous feeding. Phosphoric acid builds sturdy roots and potash promotes over-all growth. Balanced blend provides a deep rich color. Works equally well on all types of fine lawns. 22 pound bag.
